PROFESSIONAL SUMMARY

Product Designer with 3+ years of experience designing scalable digital products across fintech, enterprise, and SaaS platforms. Currently working on financial tools at EBIXCash, focusing on wealth management and banking workflows for relationship managers and high-value clients.

Experienced in simplifying complex systems into intuitive user experiences, building design systems, and delivering end-to-end product design from research to high-fidelity execution. Strong collaborator with product and engineering teams to improve usability, efficiency, and business outcomes.

PROFESSIONAL EXPERIENCE

EBIXCash Technologies Limited *🌐, UI/UX Designer*

03/2025 – Present

Mumbai, India

- Designed enterprise financial platforms focused on **wealth management, custody, and loan-backed investment products**, improving usability for relationship managers and high-net-worth clients.
- Simplified complex financial workflows into intuitive dashboards, reducing task friction and improving user efficiency.
- Built and maintained **scalable design systems** for web and tablet platforms, ensuring consistency across products.
- Delivered high-fidelity prototypes and collaborated closely with product managers and developers to translate business requirements into user-centric solutions.
- Conducted usability testing and iterative design improvements based on user behavior and feedback.

Sapio Analytics *🌐, Product Designer | UI/UX Designer*

07/2023 – 02/2025

Mumbai, India

Worked on multi-domain products across fintech, gov-tech, HR-tech, and enterprise platforms.

- **ARC (Field Force Management System)** – Improved agent tracking and operational efficiency by **35%** through optimized workflows and dashboards.
- **Samarth / Saksham (Govt Recruitment Platform)** – Enhanced job accessibility and onboarding experience for **100,000+** users across India.
- **American Express (Legal Data Platform)** – Designed dashboards to streamline loan case tracking for **500+** legal professionals.
- **OZHRMS (HR Management System)** – Reduced administrative overhead by **30%** via improved attendance and workforce management UX.
- **Secure Debt (Debt Recovery Platform)** – Increased recovery efficiency by **20%** through better data visualization and tracking flows.
- **Insure Efficient (Insurance Platform)** – Simplified insurance onboarding and policy flows across **400+** screens.
- **TRUMAC (E-commerce Platform)** – Enabled seamless order placement with CRM and credit system for construction retailers.
- **Sikho Kamana (EdTech Platform)** – Designed learning and engagement flows to improve user skill development experience.

Dhi Technologies, *UI/UX Designer*

01/2023 – 07/2023

Pune, India

- **INDHI:** Developed IOT-based products for smart home and office automation across web, Android, and iOS platforms (B2B, B2C, SaaS), designing and prototyping over 300+ user-friendly screens.
